

# FILLIN STATION™

The Fillin Station™ is the fastest automated feeder available for tabletop packagers. The automatic flood fill feeding system requires no custom calibrated canisters or settings. With the pill drop detection sensor on the iPack® Rx Unit Dose Packager, achieve high speed automated packaging with no empty packages in a packaging run. The Fillin Station™ is also one of the lowest-cost feeder options available for tabletop packagers on the market and is the ONLY non-mechanical feeder that requires NO maintenance.
